G. D. L. Senadheera	-	Team Leader																				
K. M. Weerasinghe	-	Geotechnical Engineer																				
P. V. I. P. Perera	-	Environmental Scientist																				
H. M. J. M. K. Herath	-	Engineering Geologist																				
M. D. C. Maduranga	-	Chemist																				
D. M. S. S. Dissanayake	-	Hydrologist																				
A. M. K. B. Atapattu	-	Physical Planner																				
Narrative Description of Project: The National Water Supply & Drainage Board has identified the need of improving the waste water disposal system of Sri Jayawardenapura Kotte area due to its rapid urbanization and development process. This project intends to provide piped sewerage facilities to serve a total area of approx. 2,800 ha to cover the major Government and Private Institutions in Sri Jayawardenapura Kotte DSD and adjacent parts of Kaduwela and Maharagama DS Divisions. Under this project, the waste water will be collected at the Mirihana pumping station and discharged to sea after treatment at the sea outfall in Mount Lavinia. The required construction processes (open cut and fill or Micro Tunnelling) will be carried out in the following areas; Rajagiriya, Battaramulla, Ethulkotte Beddegana, Kimbulawala, Delkanda and Nugegoda																						
Description of Actual Services Provided by Your Staff: CECB is providing consultant services to carry out a complete Environmental Assessment for the Project where the environmental safeguard is highly required. The staff provided covers the following disciplines; <ul style="list-style-type: none"> • Civil and Hydrological Study • Environmental Management and Environmental Testing • Ecology and Sociology All studies including ecological and sociological surveys, documentation, coordination and reporting activities are carried out by CECB.
