A. A. V. Dias	-	Team Leader																				
S. S. I. Kodagoda	-	Geotechnical Engineer																				
P. V. I. P. Perera	-	Environmental Scientist																				
H. M. J. M. K. Herath	-	Engineering Geologist																				
M. D. C. Maduranga	-	Chemist																				
W. A. S. Gunathilake	-	Hydrologist																				
A. M. K. B. Atapattu	-	Physical Planner																				
Narrative Description of Project: To avoid the flood burden to the Parliament Lake and to provide safe water supply facilities for cultivation during dry seasons. Many families will be benefited from the project in the design of increasing the storage capacity of the existing tanks thereby reducing the flood risk in the Colombo catchment as well as achieving the irrigation demand of the farmers. This project includes certain improvements of the existing Madiwela East Diversion Scheme The study comprises baseline survey on existing conditions of environmental, physical, ecological, economical and social conditions of proposed and project sites.																						
Description of Actual Services Provided by Your Staff: CECB is providing consultant services to carry out a complete Environmental Assessment for the Project where the environmental safeguard is highly required. The staff provided covers the following disciplines; <ul style="list-style-type: none"> • Civil and Hydrological Study • Environmental Management and Environmental Testing • Ecology and Sociology • Conducting awareness programmes and stakeholder Meetings All studies including ecological and sociological surveys, documentation, coordination and reporting activities are carried out by CECB.
