A. A. V. Dias	-	Team Leader																				
S. S. I. Kodagoda	-	Geotechnical Engineer																				
P. V. I. P. Perera	-	Environmental Scientist																				
H. M. J. M. K. Herath	-	Engineering Geologist																				
A. G. P. Aravinna	-	Environmental Chemist																				
R. M. M. T. Ratnayake	-	Earth Resources Engineer																				
S. P. Kannangara	-	Agricultural Scientist																				
<p>Narrative Description of Project:</p> <p>The objective of the project: To significantly expand and strengthen the reconstruction of urgently needed essential infrastructure, assist in meeting basic human needs and create livelihood and sustainable employment opportunities in the conflict affected areas by supporting the recovery of the region's economy. The project focused primarily on the war-affected Northern Province, and some components on some border villages in North Central Province, which were also affected by the conflict. The Asian Development Bank (ADB) funded Conflict Affected Region Emergency (CARE) Project (Component C: Improving Basic Social Services) included rehabilitation of over 200km of roads in the war affected Northern Province and rehabilitation of 56 tanks and irrigation schemes in the Northern and North Central Provinces as well as 7 Salt water Exclusion Schemes in Jaffna and Killinochchi Districts.</p> 																						
<p>Description of Actual Services Provided by Your Staff: CECB carried out complete Environmental Assessments (Initial Environmental Examinations) for the total 57 tanks and road segments selected under the Project. All studies including ecological and sociological surveys, documentation, coordination and reporting activities were carried out by CECB.</p>
