A. A. V. Dias	-	Team Leader																										
S. S. I. Kodagoda	-	Civil / Structural Engineer																										
P. V. I. P. Perera	-	Environmental Scientist																										
H. M. J. M. K. Herath	-	Engineering Geologist																										
M. D. C. Maduranga	-	Environmental Chemist																										
W. A. S. Gunathilake	-	Civil Engineer																										
L. M. T. U. De Silva	-	Environmental Chemist																										
G.H.V. Padmasiri	-	Environmental Chemist																										
A. M. K. B. Atapattu	-	Physical Planner																										
Narrative Description of Project: Sri Lanka Institute of Development Administration (SLIDA) intends to establish a sophisticated training facility at Pattipola in line with its vision of becoming one of South Asia's most prominent learning and development institutes. The campus will enhance the knowledge and skills of the Public Sector employees keeping them in par with today's foremost learning methodologies equipping them to achieve the goals set out in the Mahinda Chinthana.	 <p style="text-align: center;"><i>Physical Survey</i></p>																											
Description of Actual Services Provided by Your Staff: The proposed construction project would result in direct impacts to the 50 acre forest land under the purview of the Forest Department. This would include clearing of the planted trees, creating large open spaces, levelling (cut and fill activities along slopes), access road constructions, noise and vibration impacts, etc. The objective of the EIA Study is to identify the areas that are environmentally sensitive and evaluate the various alternate technologies and approaches that can be adopted to minimise the negative impacts and enhance the benefits. The staff provided covers the following disciplines; <ul style="list-style-type: none"> • Civil, Geological and Geotechnical Engineering • Environmental Management and Environmental Testing • Ecology & Sociological Studies All studies including ecological and sociological surveys, documentation, coordination and reporting activities are carried out by CECB.	 <p style="text-align: center;"><i>Water Sampling at Project site</i></p>
